Prosthodontic Treatment Planning

Join us for a practical and down-to-earth look at prosthodontic treatment planning. We'll walk through real patient cases and talk about how to assess complex clinical situations, prioritise treatment goals, and sequence care effectively.

Speaker: Ai Lin Tee

Lin is passionate about creating smiles that are both functional and beautiful. She graduated with a Bachelor of Dental Surgery from the University of Otago in 2017, and has since gained valuable clinical experience working in Auckland and Waikato. During this time, she successfully completed the examinations to become a Fellow of the Royal Australasian College of Dental Surgeons. Motivated to further her expertise in prosthodontics, Lin returned to Otago to complete a Doctorate in Clinical Dentistry, and was a recipient of the prestigious University of Otago Doctoral Scholarship. Alongside her clinical work, she has also contributed to dental education through teaching and examining students at the University of Otago.
